## **DETAILED ACTION**

This Office Action is in response to the RCE filed 18 March 2004.

### ***Allowable Subject Matter***

Claim 7 is allowed.

The following is an examiner's statement of reasons for allowance: Claim 7 is allowable because prior art does not disclose alone or in combination the warp preventing board has a coefficient of thermal expansion that is essentially equal to a coefficient of thermal expansion of the wiring board, the semiconductor chip has a coefficient of thermal expansion that is different from coefficient of thermal expansion of the warp preventing board and the wiring board and the warp preventing board and the wiring board collectively cause any thermal expansion and thermal contraction to occur essentially equally on both the first and second semiconductor chip surface, thereby preventing warpage of the semiconductor chip during a change in an environmental temperature.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
